Pacific Bell Custom 800sm Tailor it to meet your needs

Pacific Bell Custom 800(sm) is the most flexible, affordable 800 service ever offered by Pacific Bell. Businesses can tailor it to work just the way they want and cover just the area they need - from a single prefix to the entire state.

With Custom 800, you can route your 800 calls to different locations at different times. And get reports that tell you when you're getting the most calls and where they're coming from. You can even find out if people are trying to reach you from outside your 800 area. And you can have it all without buying a dedicated 800 line because Custom 800 works over regular business lines.

If this isn't enough, if you purchase Custom 800 between April 13, 1990, and June 11, 1990, we'll install it for free!*

* Other applicable rates and charges still apply.

At Pacific Bell, "We're making things easier(sm)."

The NEW 811 NUMBERS may not be available in your area. Call the Business office number on your bill or call Directory Assistance for an alternate number.		

Pacific Bell's Inside Wire Repair Plan

We've added something new. In the past, when a Pacific Bell Technician came to your business and found the trouble you reported to be in your equipment, you incurred a charge of \$35. As a business "Per Month Inside Wire Repair Plan" subscriber, we will now isolate your telephone equipment trouble at no additional charge. This same service has also been incorporated into the new rates for users of the "Per Visit Inside Wire Repair Service."

POSTMARK DATE MOVED

Your telephone bill envelope will be changing over the next few months as we install new automated mailing equipment. Several features will change. Most noticeably, the postmark date will be moved from the upper right-hand corner to the lower left, under the address window. The postmark date is used to compute the date when your bill should be paid to avoid late payment charges.

The NEW 811 NUMBERS may not be available in your area. Call the Business office number on your bill or call Directory Assistance for an alternate number.		

AREA CODE SPLIT-714-909

Effective November 14, 1992, Area Code 909 will be introduced to serve all Pacific Bell customers in Western and Central Riverside and San Bernardino counties, as well as a portion of Eastern Los Angeles County. There will be a nine-month period during which callers can use either area code to complete calls.
